DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/27/2006 has been entered.

Allowable Subject Matter

2. Claims 1 and 3-30 are allowed.

The following is an examiner's statement of reasons for allowance: As to claims 1 and 21, the prior art does not teach or fairly suggest a digital camera comprising an image generating device successively generates first image data by capturing an image over a first exposure time and second image data by capturing an image over a second exposure time set longer than the first exposure time, a high-frequency component of an entire spatial frequency spectrum of the second image data being less than a high-frequency component of an entire spatial frequency spectrum of the first image data; and an image processing device that generates third image data in which the blur has been corrected by correcting at least the high-frequency component of the spatial frequency contained in the second image data based upon the first image data and the second image data generated by said image generating device in combination with the rest of the claims, respectively. As for the other allowed claims, the reasons for allowance can be found in the previous office actions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
